Editorial Board of Journal of Global Positioning Systems	i
Geometric analysis of reality-based indoor 3D mapping	1
Zeyu Li, Jinling Wang, Muwaffaq Alqurashi, Kai Chen and Shuran Zheng	
Tag location method integrating GNSS and RFID technology	11
Meng Du, Changfeng Jing and Mingyi Du	
Camera auto-calibration in GPS/INS/stereo camera integrated kinematic positioning and navigation system	17
Nilesh S. Gopaul, Jianguo Wang and Baoxin Hu	
Performance analysis of GNSS multipath mitigation using antenna arrays	32
Niranjana Vagle, Ali Broumandan, Ali Jafarnia-Jahromi and Gérard Lachapelle	
A posteriori estimation of stochastic model for multi-sensor integrated inertial kinematic positioning and navigation on basis of variance component estimation	47
Kun Qian, Jianguo Wang and Baoxin Hu
