Articles

In-Orbit phase center corrections calibration for BDS-3 satellite B1C/B2a Signals in the IGS20 frame

Bingchen Fu and Jianghui Geng✉	1
--------------------------------------	---

Demystifying spatiotemporal relationship between GNSS-derived precipitable water vapor and ENSO index and its applications on floods and droughts

Yumeng Hao and Kefei Zhang✉	18
-----------------------------------	----

Analysis of GPS Network Inversion Filtering Algorithms for Fault Slip

Zhengdong Luo, Tieding Lu✉, Qianru Chen, Xiwen Sun, and Weijian Hu	30
--	----

Enhanced Low-Cost GNSS RTK Positioning with an Adaptive Threshold

Yalong Wang, Yuting Gao✉, Qingzhi Zhao, Shurong Xue, Bopeng Sun, Feng Zhou	44
--	----

Optimizing window and component selection in SSA for GNSS coordinate time series offset detection

Zhiwei Yang, Guangyu Xu✉, Aiping Zhao, Xiaowei Xie	65
--	----

Statistical Analysis of Ionospheric Scintillation in Low-Latitude Regions

Lingqiao Zeng, Xiaomin Luo✉, Biyan Chen, Wei Xiang, Ankang Xie, Jing Wang, and Kamarul Hawari Bin Ghazali	79

PhD Dissertation Abstracts

High-accuracy Smartphone RTK Positioning: Major Challenges and Innovative Solutions

Yang Jiang	98
------------------	----

Precise Smartphone Positioning Based on PPP-RTK Techniques
Yan Zhang 99

Research on Key Technologies and Applications of GNSS-R Sea Surface Altimetry and Eddy Detection
Jin Xing 100

Ground and Marine Resilient Integration Technology of Multi-Source Sensors for Navigation and Positioning
Mowen Li 102

Theory and methods of testing and integrity monitoring for multiple gross errors
Yangkang Yu 104

Research on Key Issues of Refining GNSS-based Terrestrial Reference Frame
Ruyuan Wang 107
